STUDENT PERFORMANCE AND LEARNING OUTCOMES

Govt. Degree College Sopore has been making significant contribution in the academic excellence and in meeting the both national and global educational needs. The college has been doing a wonderful job in the fields of teaching- learning and quality research. The college has adopted a policy to design curricula in response to needs of the society and changing global dynamics.

The college offers 17 Under-graduate courses approved by the University of Kashmir. A summary of all these courses is given below.

Faculty of languages comprises of Arabic, Persian, English and Urdu. The Department of Arabic and Persian is equipping the students with all the skill learning methods related to the subject and has adopted a policy to induce a great habit of learning the Arabic among the students to meet the new global market challenges. The Department of English is one of the oldest departments of the college and is catering students from diverse disciplines. It is equipping the students with sharp critical analysis promotes honest background among its learners. The faculty of language is accomplished with the subject of Urdu keeping in view the regional as well as national needs under consideration. The department is catering a range of options to its students with respect to prose, poetry and introduction of Modern Indian Language.

Keeping the current global trade and commerce in high consideration the college facilitates the desired students with different skills like accounting, auditing, development, taxation etc. the faculty of commerce and management coordinate their curriculum activities and commitments to serve the same. The students are further complimented by the department of economic on relevance of the subject under current global economic situation.

The college operates different courses under the united name of faculty of social sciences. The subjects include History, Education, Economics, Tourism, Psychology, Political Science, Sociology and Philosophy. The basic goal of these subjects is to train the students for different social, cultural, political and economic challenges and to serve the society in different dimensions of socio-economic development. The faculty through its efforts encourages its students to put theories learned in social and allied subjects into practice and interface directly with the public.

Faculty of science in our college is well established and offers subjects like Bio-technology, Bio-Chemistry, Computer Applications, Botany, Chemistry, Geography, Geology, Mathematics, Physics, Statics, Sericulture and Zoology. All the departments are well equipped with laboratories containing modern facilities. The students of the faculty are well equipped with the scientific knowledge and exposed to lab as well as field.
