She is our mother, our sister, our wife, our grandmother and many more. She is the cause of life, because of her we are in this world. Before a sister, a mother, a wife, she is a girl and if you are saving a girl you are saving your world. She explained that discrimination against girls in India has been going on since ages now. Even today, there are several sections of the Indian society where the girl child is treated as a liability. While several privileges are given to the boys; girls are often restricted to the confines of house and given very little or no opportunities to learn and grow in life. She emphasized the role of education is extremely important here and goes a long way in empowering women. And the process of education has to begin early in life. More and more girl children need to be sent to school provided quality and holistic education. The session concluded with the vote of thanks given by Prof. Nusrat Aziz (Assistant professor Physics)
