

Programme: Science and Technology for Specially abled persons.

**Brief Report:** This year, the government of India dedicated the national science day to the theme "Science and technology for specially-abled persons". The idea was to encourage innovation, awareness and reach of accessibility solutions to specially -abled people in the country. In this connection a one-day workshop was organised on 28-02-2017 by Department of Zoology GDC Sopore on the theme "Science and technology for specially-abled persons". The event started with the welcome speech by Principal of the college and he also thrown a light on the governments "accessible India campaign (Sugamya Bharat Abhuyan), a nation-wide campaign for achieving universal accessibility, there is a push to integrate PWDs in the society. Honourable guests also shared their experience with specially-abled students and teachers and advised them that innovations in technology can help specially-abled person to lead an independent and near normal life. The workshop concluded with a vote of thanks by Head department of zoology GDC Sopore.
