

REPORT on “ENTREPRENEURSHIP PROGRAMME ON OPPORTUNITIES IN TROUT FARMING”

One Day Entrepreneurship Programme on Opportunities in Trout Farming organised by Deptt. of Zoology on 17.06.2019 at College Conference Hall.

1. One Day Entrepreneurship Programme on Opportunities in Trout Farming organised by Deptt. of Zoology on 17.06.2019 at College Conference Hall was conducted under the Chairmanship of Prof. Farooq Ahmad Malik worthy Principal.
 2. Dr. Shameem Dar, HOD Zoology, highlighted that in the mountainous region of Kashmir Valley, the fresh water resources received from the upper mountain glaciers is excellent for trout farming. However, instead of being produced locally, the highly valued trout is often being imported. Therefore, the utilization of available water resources for trout production is an obvious possibility for both increasing employment opportunities and generating income.
 3. Dr. Rumaisa Gul, faculty Department of Fisheries, showcased the presentation containing video and audio content on trout farming and the required infrastructure for establishing trout business.
 4. Dr. Owais Charag, HOD Management, while addressing the session highlighted the commercial value of trout farming and identification and development of value chain for trout for export market purposes.
 5. The session was also addressed by Dr. Tariq Ahmad Wani regarding what college is doing in the line of imparting technical knowledge to the students on various businesses that can become options for self-employment.
- The vote of thanks was given by Dr. Shameem Ahmad Dar thanking all the faculty and students for participating in the event.
