

ONE DAY WORKSHOP ON RENEWABLE ENERGY MANAGEMENT

One Day Workshop on RENEWABLE ENERGY MANAGEMENT for students, teaching and non-teaching staff of the college organised by the Department of EVS and IQAC 23-03-2016.

One-day workshop on RENEWABLE ENERGY MANAGEMENT for students, teaching and non-teaching staff of the college was organised by the department of EVS and IQAC on 23-03-2016. In this workshop all the students, teaching and nonteaching faculty of the college participated.

The basic objectives of the workshop were:

To train teachers and students to edify energy awareness for sustainable development.

To create awareness to conserve, prepare and make informed energy choices.

To know the current trends and technologies in renewable energy sector.

Prof. Mushtaq Ahmad, Principal Govt. Degree College Sopore presided over the inaugural session of the workshop. And emphasised that energy usage index indicates the county's state of economy, growth and standard of living.

ProF. Suhail Abdullah, HOD EVS, while addressing the gathering said, "India has immense energy efficiency potential which is left untapped. We believe that ESCOs can play a major role in implementing Energy Efficiency in India and ESCO business model is the need of the hour."

At the end prof. Mehraj Ud Khandwav Coordinator IQAC presented vote of Thanks to all the Participants.
