

Report on “Building Cyber Awareness Culture- From start to success: Navigating Government programs for Entrepreneurship and talk on Cyber Crime.”

Date: 18.10.2023

Rapporteur: Dr. Mudasir Basu

Women Development Cell of the college in collaboration with Special Cell for Women, Baramulla organized an awareness programme on "*Building Cyber Awareness Culture- From start to success: Navigating Government programmes for Entrepreneurship and talk on cybercrime*" under the patronage of Prof. Dr. Salma Ahad, worthy Principal of the College. The event featured a welcome address by Dr. Newsheen Hamid from Department of Biotechnology, giving a brief outline about the Resource person.

The session began with the insightful presentation by Ms. Darakshan Bhat, Social Worker and researcher at National Women's Commission and Tata Institute of Social Sciences who deliberated on the above theme. The resource person emphasized on the significance of understanding digital landscape in today's entrepreneurial world, and motivated the students to be skillful, oriented and self-sufficient in their lives. Furthermore, basic education about Cyber Space, its uses and misuses were deliberated to the audience. She talked on the complex and ever-evolving virtual world of cybercrimes, various cybercrimes society is currently witnessing, and various Legal Provisions for resolving the same. The students were made aware about many critical issues that we all are facing in this digital era, especially the woman. Lastly, she oriented the audience about where and whom to contact, approach and address the issues related to Cyber Crime.

The whole session was actively attended by the faculty and students of the College. Dr. Abida Quansar from Department of Islamic Studies concluded the event by proposing formal vote of thanks to the speakers and attendees. She specially acknowledged the compassionate support of Madam Principal for providing the platform for such need based events. Finally, she appreciated the efforts of Convener, Women Development Cell, Dr. Yasreel Mustafa and her team for organizing such fruitful events.
