TOUR REPORT

A field visit of 6th semester students of Geology Department was arranged by GDC Sopore on 16th April 2024. The objective of this field work was to provide an opportunity to our students to seek an alternative learning experience beyond classroom environment. Since our valley is endowed with repository of world-famous geological formations and it is important to acquaint our students with these sites. The field study was conducted in the south Kashmir, Shopian district and adjoining areas wherespecific sites were explored extensively for lithology and stratigraphical studies. This specific area is known for lower Karewa sediments exposed by erosion of various tributaries of river Jhelum like Rambiarra etc. A group of twenty-six students and staff headed by tour incharge Dr. Khursheed Ahmad Parray participated in this special field tour. Worthy principal madam of the institution Prof. Dr. Salma Ahad appreciated the students and staff for successful and safe culmination of the event. It was reiterated that student centric activities will be encouraged and facilitated in future endeavours as well.
